

Parents of Faith Footstep Kids,

A new part of our church school program begins on Sunday, September 25<sup>th</sup>. Each week as the children come to worship, there will be a Faith Footsteps Kids welcome center in the north Narthex. The children will pick up their Young Disciple Worship Box there and take it to the worship service they are attending. In this box will be directions and materials that they will use with their morning bulletin to help them be a part of the worshiping community. Each child will have their labeled box so that the activities are developmentally appropriate for them. It would be wise if you would arrive just a little early for worship on the first week so that you can explore the box with your child. In it you will find a list that will tell them to do things like:

Underline the name of our church.

Circle each time we stand.

Put a musical note sticker by each time we sing.

Place the red heart in the offering plate when it passes.

Put a book sticker when we read the Bible.

There will be additional or different ones depending on the age of the child. There will also be a "chart" in the box with a list of things to remember or learn. Once they have five marks for learning a specific thing from their list, they will see me and I will listen to what they have learned. I have some special things for them when they accomplish items from their list.

If your child is attending either the 8:30 or 11:15 worship times they will return their boxes to the Faith Footsteps Kids Welcome Center in the Narthex. If they are in the 9:45 worship, there will be a collection bin at the entrance to the Social Hall.

If you would like your child to participate in this program please send me an email or bring me a note on Sunday morning with your commitment to guide the process with your child.

If you need additional information or have any questions feel free to contact me.
